MMPS/Circular/14/2014

Dated:- 29-08-14

Dear Parents,

You will be happy to know that in order to provide an understanding of International English Language and to help our students prepare for the global world, the school has decided to offer a range of International English Language qualifications from Cambridge English Language Assessments (Part of University of Cambridge, UK) for school students starting right from grade 1.

In today's world, learning English is vital and will help our children achieve their full potential in later life. The sooner they start learning, the better — with the right methods; children can learn English quickly, effectively and enjoyably. Once they have this initial grasp of English in primary school, they will have a strong foundation which will be an advantage in their later studies. So that children learn to read, write, speak and listen with assurance and get benchmarked to global levels (e.g. CEFR – Common European Framework of Reference for Language).

Below are some benefits of taking Cambridge English Language Assessments for students:

For the students

- Builds confidence in using English.
- In preparing for the test, the candidates develop real-life language skills.
- Truly international; Exposure to international English and testing methods.
- Select Cambridge English Exams are recognised for Visa purposes and are accepted in lieu of exams like IELTS, TOEFL & PTE etc.
- Recognised in over 130 countries, 14000 institutions and taken by over 4 million candidates worldwide.
- Certificates are valid for life and accepted internationally for work, study and visa purposes.
- Confidence that their children are being taught English to international standards.
- Speaking skills are assessed by external examiners certified by Cambridge English.

The tests are designed to be fun for the young students and stimulating for the older students. These tests will be administered during school hours in the school premises.
