Circular for Parents
Awareness Regarding Manjha

Dear Parents,

Greetings!

We hope this message finds you and your family in good health and spirits.

We would like to draw your kind attention towards a serious and growing concern – the use of “**manjha**” (sharp synthetic kite string), which poses a significant threat to **human lives, especially children and two-wheeler riders**, as well as to birds.

Despite being banned by authorities, **Chinese manjha and glass-coated strings** continue to be used during kite flying. These strings are **extremely dangerous**, often resulting in **deep injuries, fatalities, and accidents**.

As a responsible institution committed to student safety, **we request all parents to strictly discourage their children from using or purchasing manjha of any kind**. Kite flying, though a joyful activity, should be carried out responsibly using **cotton or eco-friendly string only** and **under adult supervision**.

We also urge parents to:

- Educate their children about the dangers of manjha.
- Monitor any kite-flying activities.
- Report any local shops selling banned manjha to authorities.
- Encourage safe and eco-friendly recreational practices.

Let us work together to ensure the safety of our children, community members, and our environment.

Thank you for your cooperation and continued support.
